

SURVIVAL KIT # 1

I wouldn't know what to do with compasses, anti-wind matches, rain-water purifying pills or with a Swiss Army multi-use knife.

I need little to survive, actually.

Only a single item, a vast amount of it accompanies me everywhere I go: either when I'm travelling or I've got a house around me.

"Our present problem no longer deals with a word or a sentence repeated by an individual, but rather with a situation, that is, a combination of circumstances, which recurs several times in its original form and thus contrasts with the changing stream of life."

Henri Bergson, The Laughter

Survival Kit #1

Solo.
